

Departamento de Obras Civiles
Universidad Técnica Federico Santa María

The Department of Civil Engineering at the Universidad Técnica Federico Santa María in Chile is seeking for applications to two (2) tenure-track faculty positions at the level of Assistant or Associate Professor to commence in 2017. Applications are invited from outstanding candidates with expertise in the field of highway engineering. Candidates working in the areas of pavement engineering, materials for pavements, geotechnical engineering for pavement infrastructures, highway capacity, geometric design, pavement management or sustainability of highway infrastructures are encouraged to apply to these openings.

Applicants should have a PhD in Civil Engineering or a closely related discipline. The candidates will be expected to develop a high quality research program. Duties include teaching graduate and undergraduate courses in the Civil Engineering curricula. Knowledge of Spanish is desirable.

Applicants should send their full curriculum vitae, a statement of research, a statement of teaching highlighting their vision and capabilities, and the names of three references to:

Dr. Patricio Catalán

Chair, Civil Engineering Department

Universidad Técnica Federico Santa María

Av. España 1680

Valparaíso, Chile, 2390123

Email: patricio.catalan@usm.cl ; postulaciones.rrhh@usm.cl (please send application to both email addresses)

Applications will be accepted until suitable candidates are found. Information about Universidad Santa María and the Civil Engineering Department can be found at:
